BOLD

In February 2019, I founded the company Bold Technology Consulting, LLC (boldtechnologyconsulting.com). Bold Tech aims to connect small businesses with their customers online. We create and manage websites and social media accounts, as well as help with general technology needs of small businesses. With Bold Tech Consulting I've learned how to engage with frugal clients and meet tight deadlines. I hope to further expand Bold Tech Consulting's clientele and learn more about consulting.

SCHOLARSHIP

Benjamin A. Gilman International Scholarship

Given to American students to gain proficiency in diverse languages and appreciation for other cultures, skills that are critically important to their academic and career development.

G. Michael Dill Scholarship

Given to students for projects that expand and deepen an area of study not available through Wabash College's traditional program. I studied Yoga in India through this scholarship.

Givens Award for the Study of Western Art

Given to Wabash College students studying abroad intending to study Western art. I used this scholarship to study contemporary art in Vienna, Austria.

PERSONAL & PROFESSIONAL GOALS

After completing the USTA Austria program, I hope to pursue a full-time position with an international consulting or technology company, working as a consultant during the day, and a yoga teacher by night. For me, sharing the skills that I have had the privilege to learn in an accessible way is of utmost importance. Therefore I hope to continue my work as a consultant for small businesses along with discounted monthly yoga classes. I also hope to continue pursuing my study of French. Lastly, I hold eco-friendly initiatives in the highest regard. Wherever I end up, I plan on spending most of my free time supporting green initiatives.
